Our Parameters

Groupwork Parameters:

Program Parameters:

- Jefferson and West Point and the University of Virginia
- State Standards and Program Guidelines
  - Currently in a state of flux
  - What is anticipated
  - How does this impact us?
- Professional Organization Standards
  - What is included in the binder
- Guidelines from the Chancellor of the State System
  - i.e. 120 credits
- The Core Curriculum of SRU
  - Where and how do we have latitude with this
- Research-based effective practice
  - Articles in the binder
- Other?
Building Consensus

A goal is to build consensus across the department. Our founding fathers were able to build consensus to a point where the United State became an actuality. What approaches would we like to use to nurture this to become an actuality?

1) One member of each of the earlier groups should join with a member of each of the other two groups to create entirely new teams.

2) Please individually jot down your thoughts about building consensus in the space below.

3) Please share out your thoughts with your new team members. As a team, please select a couple of strategies that you feel will be most effective. Record those on chart paper and put the chart paper on the wall. Select one member of your team to present your ideas. After each group presents their ideas, we will decide on a course of action as a whole.
